

NOW HIRING · LEARN A TRADE, BUILD A CAREER

WATER TREATMENT & PUMP TECHNICIAN

No experience needed. We'll teach you the trade.

**\$26-30**
PER HOUR

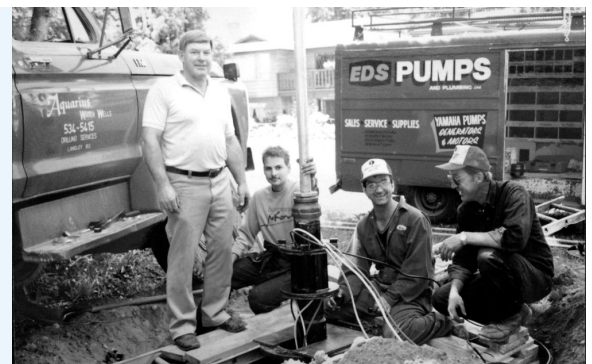

A TRADE CAREER WITH A TEAM THAT HAS YOUR BACK

Looking for meaningful work in an essential trade? You could use your skills to bring safe drinking water to families and businesses across the Lower Mainland.

You don't need any experience to join us. We'll teach you the trade, and you bring the right attitude and a strong work ethic. Along the way, you'll have the chance to start a plumbing apprenticeship with us. If you're keen to learn and ready to build a long-term career, read on to see if this could be the right fit.

ABOUT US

For over 65 years, EDS has helped families and businesses in the Lower Mainland access safe and reliable water. We install and service residential and commercial pump and water treatment systems, and we take pride in honest work and in looking after our people. We're a team that teaches, shares what we know, and sticks around.

WHO YOU ARE

- ✓ You're a tradesperson, or want to become one, looking for a stable job in an essential industry
- ✓ You're curious and love learning how things work
- ✓ You're friendly, easy to talk to, and a good teammate
- ✓ You're open to coaching and happy to ask questions
- ✓ You're not afraid of physical, hands-on work
- ✓ You take pride in doing things right, even when conditions are tough
- ✓ You're dependable and care about safety
- ✓ You're looking for a long-term career in a trade, not just a job

WHAT YOU'LL DO

You'll work in the field alongside experienced technicians, learning on the job and taking on more responsibility as you grow.

- ✓ Help diagnose and solve water system problems for residential, agricultural, and commercial customers
- ✓ Learn to install, service, and maintain pump and water treatment systems, with a mix of electrical, mechanical, and plumbing work
- ✓ Help inspect wells and water systems and learn how to recommend upgrades, replacements, or preventative maintenance
- ✓ Learn to manage a service call from start to finish, from prepping your van to completing work orders and customer follow-up
- ✓ Build trust with customers through clear explanations and honest recommendations
- ✓ Work alongside our service and sales teams so projects run smoothly
- ✓ Work with effluent and sewage systems as part of the job
- ✓ Follow our safety protocols on every job
- ✓ Join the rotation for on-call duties as you gain confidence, supporting our 24/7 emergency service

WHAT WE REQUIRE

- A valid Class 5 driver's license
- Fluent English, spoken and written
- Physically able to lift heavy equipment and occasionally work outdoors in any season
- A clean, professional appearance and friendly service with every customer

SCHEDULE

- Monday to Friday, 8:00 am to 4:00 pm
- Rotating on-call shifts for our 24/7 emergency services once you are trained up
- Overtime available

WHAT WE OFFER

- ✓ **Starting wage: \$26 to \$30 per hour**, based on your starting point
- ✓ Paid on-the-job training with mentors who want you to succeed
- ✓ The opportunity to enter a plumbing apprenticeship while you work with us
- ✓ A path toward your Well Pump Installer certification (recognized by SkilledTradesBC) as your skills grow
- ✓ Job stability in a reliable, essential industry

Benefits:

Dental care

Extended health care

Vision care

Life insurance

RRSP match

HOW TO APPLY
